About Me

I'm a Computer Science Graduate, self-taught Full Stack Web Developer and a Cyber Security Enthusiast.

Education

B.E. Computer Science Engineering, Chandigarh University - **CGPA 6.22** Aug 2018 - Jan 2023
Relevant Coursework: Web Development, Web Security, Programming.

XII, Central Model School - **CGPA 7.47** Apr 2016 - Mar 2018
Relevant Coursework: Computer Science.

X, Army Public School - **CGPA 8.40** Apr 2006 - Mar 2016

Skills

Languages: JavaScript, Python, Bash, SQL, HTML, XML, NoSQL, C++, Kotlin, CSS

Frameworks/Libraries: ExpressJS, Django, React, Bootstrap, Mongoose

Technologies: Linux, Networking, Docker, Podman, MySQL, Git

Projects

MyCampSite | Node.js Jan – May 2022

- A web application with features like login/logout, registering new accounts, posting media and reviews.
- Here people can share their favourite camp locations and it's details for other people to visit.
- Based on the location input, a map is generated dynamically using Mapbox web services API.
- It was built using HTML, CSS & JavaScript. Used NodeJs for the runtime and used MongoDB as its database. Used EJS as the template engine.

AutoJoin-Zoom | Python Nov – Dec 2021

- A bot to join classes automatically on Zoom app.
- Needs timetables, meeting id's and passwords in a csv file.
- Works for both Linux and Windows. Motivated by endless online classes.
- **System Requirements:** Internet, Python3, Zoom App, PyAutoGui (Python Module)

Web-Hacking-Tools | Docker/Podman May 2023

- A collection of my mostly used tools during web penetration testing.
- Image OS based on Ubuntu:latest.

Alien-Shooter | Python Jun – Jul 2021

- A simple game to shoot down aliens.
- Implemented python Object Oriented Programming.

Tic-Tac-Toe | React.js Sep – Oct 2022

- A simple Tic-Tac-Toe game made completely in React and a little css. This project was from the react docs.

Experience

Technical-Integration Team Lead May 2023 – Ongoing
Walmart, RiseOTB Work From Home

- Test developer APIs to solve issues. Fix networking, authentication and authorization errors.
- Help developers build applications using Marketplace APIs, for sellers who want to integrate their business with Walmart.

Fundraiser Sep 2020 – Oct 2020
Muskurahat Foundation Work From Home

- Spread awareness amongst our peers about the needs of our poverty stricken population.
- Collected funds to help the children in need.

Certifications

CCNA Essential Nov 2022 – Jan 2023
Indian School of Ethical hacking EC-Council Accredited

- Learnt about the inner workings of the OSI Model, Client-Server Architecture, TCP 3-Way Handshake, etc.
- Got to know about various Routing Protocols, and remade them using Cisco Packet Tracer.
- Gained practical knowledge of Router Configuration and Device and Connection Management.
